

To Whom It May Concern at FCC,

I am opposed to any measures which allow for increasing the number of media forms and outlets that can be owned and managed by a single entity. Our democracy is already threatened by the constraints on journalism, analysis, coverage and access that multi-national and profit interests are imposing. Independent media need to be supported and protected for the sake of protecting the best possibilities and values in the American way of life.

Thank you for your consideration.

Sincerely,

Dr. Kari Smith
Dummerston, VT
